

MAY WE
LIVE, AWAKEN AND REGENERATE
TOGETHER
OXALÁ!

* Oxalá it's a portuguese word that means
"may this happen"; desire that something
manifests; Faith; God will.

OXALÁ

ECOVILA DESPERTA
PORTUGAL

A place where we live harmony
and breathe fresh air

...

Where we dance, sing, meditate
and plant together..

Where each one is autonomous and at the same time
lives the community environment.

...

A place that will be a
constant inspiration.

CLOSER TO THE TRIBE!

Tribe “around the corner” and, at same time, keeping each one their own space.

THE TRIBE OF THE FUTURE

A tribe of awakened beings in relation to there own inner nature and the nature around them.

AN ECOVILLAGE WHERE WE CAN BE FULLY OURSELVES.

Where everyone has their home and a large area of land to nurture.

A place that is sustained from the inside (ecovillage) and from the outside (visitors).

A reference in the areas of regenerative ecology and human development.

IMPORTANT NOTES:

- 1- The content of this presentation may change, because we will listen to potential residents, focalizers and investors, to co-create according to everyone's needs.
- 2- All nationalities are welcome, however in the circles, community meetings, the language spoken will be Portuguese* and there will always be english translation. There will be Portuguese classes too.

*We follow the shamanism principles:
Total connection with the land where we are.
Using the plants of the land, the language of the land where we live,
chants and knowledge of the place.

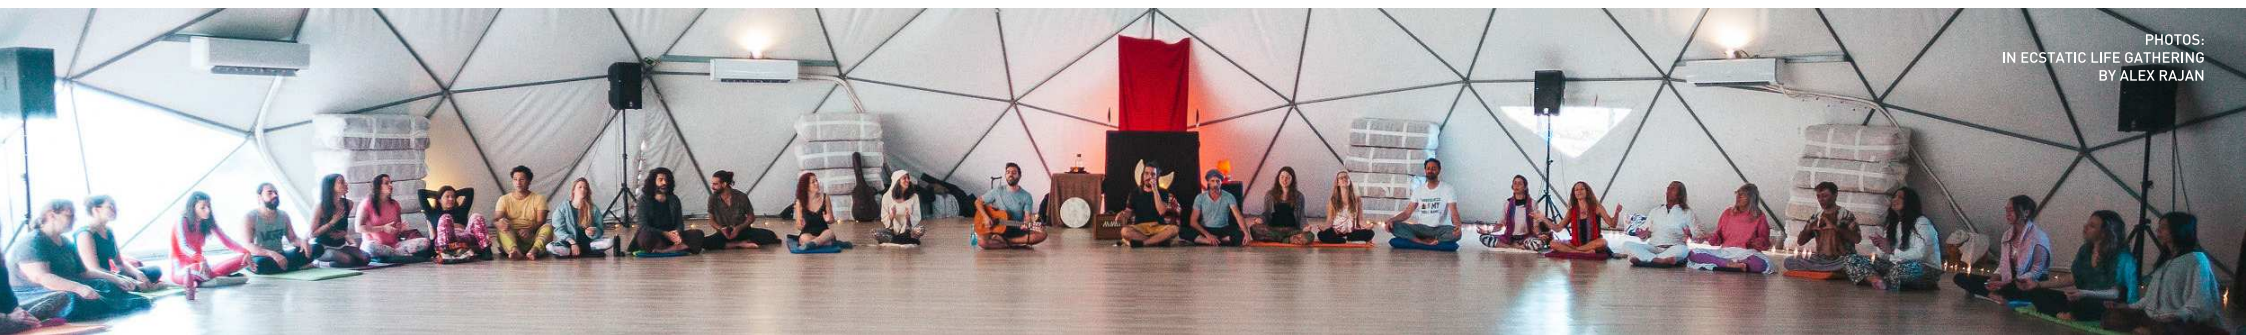

ACTUAL PROJECT PHASE
